now available

Square columns in Hebel can be supplied in kit forms. FC square columns soon to be released.

FC offers the following features and benefits:

- Greater uniformity of texture without spirals or patch marks.
- Elimination of concrete cancer and rust discolouration.
- Can be accurately split longitudinally to encase existing columns.
- Can be accurately cut to length to suit varying floor to slab heights.
- Speeds up construction cycle by eliminating the need to wait for concrete cure prior to stripping off column forms and patching imperfections on the surface.
- Lighter than alternatives.
- Can be painted in a variety of smooth and textured finishes over pre-primed coat to save costs.

Guardian Building Products have developed a facility to manufacture accessories and features for use with Architectural Columns.

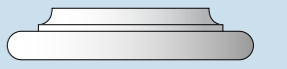

Add-on accessories such as pedestals and capitals including rings and quadrants can be fixed to the column before and after construction.

JUST RELEASED

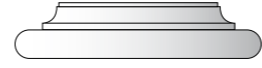

Some of the Architectural Columns now available are pre-primed to save costs when installing to new homes, renovating and commercial sites. Ask us for sizes available.
